Jisun (Sunny) Ju

Vancouver, BC | P: +1 (604) 735 3940 | sunnyju318@gmail.com

Position

Entry-level Front-end Developer skilled in React and SCSS, eager to contribute as an internship or junior role.

SKILLS

JavaScript (ES6+), React, React Native, HTML5, CSS/SCSS, Git/GitHub

EDUCATION

British Columbia Institute of Technology (BCIT), Vancouver, BC
Diploma in New Media Design & Web Development / In Progress (Expected Apr 2026)

Sungkyul University, Anyang, South Korea
Bachelor of Social Welfare / Completed 2011

EXPERIENCE

BirdyJ Design / Founder & Designer
Australia (2017-2019), South Korea (2020-Present)
- Founded and ran a handmade accessories brand, overseeing design, sales, and support.
- Focused on jewelry at offline flea markets in Australia, expanded to online sales in Korea via the IDUS platform with winter handmade items.
- Earned ~5.0/5.0 customer rating and ≈$30K seasonal revenue.

PROJECTS

SkyFrame (React Native, Bluesky AT Protocol) – In Progress
- Building a third-party mobile client for Bluesky with a visual-first approach for art and design content.
- Integrated AT Protocol API authentication and feed endpoints, working on image-focused UI.

Portfolio Website (React, SCSS, Framer Motion)
- Personal portfolio with interactive animations and responsive design.
- Built SCSS design system with modular components that adapt across desktop and mobile.
